

Homestead offers over 20 kilometers for cross country

MIDWAY — The Homestead is now open as a ski destination with 20 kilometers on site, and an additional 12 kilometers at nearby Wasatch Mountain State Park Cross Country Ski Area. And in the immediate area White Pine and Sundance.

The Homestead's recently expanded cross-country skiing operation now offers nordic skiing at the historic resort, on the property's championship golf course.

The ski area features 20 kilometers of traditional skiing and skating. Trails wind along Snake Creek and up the nearby foothills and canyons.

Shauna Vanderlinden, nordic ski director at The Homestead, says the course "offers something for skiers of all ages and abilities. It's the perfect setting to boost skiing confidence and skills."

For example, it features an instruction area, an easy loop, an

intermediate loop, and two most-difficult areas.

The Homestead offers state-of-the-art Rossignol and Salomon nordic ski equipment for rent and expert ski instruction. A Homestead trail pass is \$5 per day. A trail pass at Wasatch Mountain State Park is \$4. Season passes (offered at The Homestead only) are available for \$60 per adult; \$30 per child age 10 and under.
